Food Management System

## HACCP - HAZARD ANALYSIS CRITICAL CONTROL POINTS

The food and drug administrative agent defines Hazard Analysis Critical Control Points (HACCP) to be the food detrimental elements major control points. HACCP is composed as hazard analysis (HA) and critical control points (CCP). HA is to search for the hazard elements and analyze the hazard structure. HACCP is to decide the sanitation control points to control the major hazard control points after identifying the hazard elements from material supply, manufacture, processing, preservation and distribution to the end user consumption.

In other words, HACCP is a scientific food sanitation control system to secure the safety and hygiene of food product by the effective and self-motivated hygiene control system. HACCP is the management system dealing with food safety through the following methods. Analysis and control of hazard elements from biological, chemical and physical perspectives. All food product life cycle is the object of HACCP beginning from material supply and food manufacturing to distribution and consumption.

- Surveillance Audits

### ABOUT US-ALLIANCE REGISTRAR

Alliance International Strategic Registrar's goal is to provide the highest Management Systems assessment, so that our Clients are recognized as the industry standard for excellence. We will distinguish ourselves through dedication toward improving our Client's Management Systems.

We understand the importance of impartiality and conflict of interest to ensure objectivity of our Certification activities. We will foster developmental relationships with the Clients we serve to achieve Client satisfaction. Our logo shall be perceived as a symbol of Quality and Excellence.

Alliance is an internationally accredited

Management System Registrar offering a comprehensive suite of services to those organizations wishing to achieve registration.

Alliance has been built on decades of collective experience within the manufacturing and non-manufacturing industries. Our senior staff played a major role in developing the content of the Quality System Requirements and piloting the first Quality System Requirement witness audit, setting the standard by which the industry is measured.

**OUR POLICY** is to provide exceptional levels of customer service combined with common sense interpretations of the Standards you wish to achieve. Based on

our extensive background within the quality industry we have developed a "thorough but fair" assessment approach to the registration process. This approach, welcomed by our clients, has developed a good Improvement Partnership and earned Alliance an enviable reputation within our industry. Business leaders have put the dedication and experience of Alliance personnel to work for them and you can too

We also believe registration should be used as a development tool for your organization. Registration is only the beginning of improving your overall business. We will help by identifying opportunities for you to continue to develop your business processes to ensure not only conformance to the intent of the Standard but improvement in all aspects of the company

The logo of Alliance/ARC is the degree of public confidence and trust, which is established by customer focus, the integrity of its leadership, operating principles as well as impartial and competent assessments.

During a recent survey of ISO registrar performance, Alliance/ ARC was ranked among the top in overall customer service.
